

2008/09 SUMMER READING REQUIREMENTS

GRADES 2 AND 3

Our 2008-2009 curriculum requirements begin with a summer reading program. Reading during the summer months can have many benefits for your child. The purpose of the summer reading program is to encourage your child to continue reading throughout the summer months to help him/her maintain their reading level, and to help your child develop a love for reading.

You and your child may select books of your choosing from the local library or from your own personal library to read. We request that the books you select have not been previously read by your child, have appropriate content, and are on your child's grade level.

As your child completes each book, check reading comprehension by having your child share with you what the book was about and any details he/she remembers. Please post the reading list in a good location and, as each book is read, add it to the list. Please record the book title and number of pages in the book. All students in second or third grade who qualify by reading at least 10 books this summer will be taken off campus for lunch to the Tallahassee Mall during the month September as a reward for their efforts in summer reading.

Summer is a fun time and we hope that one way our students will enjoy those months is through discovering the joys of reading for pleasure. We trust that your child will retain what he/she has learned this year and be enriched through the summer reading program.

Have a wonderful summer. We look forward to seeing you in August.
